

From classroom to dorm room, Webex has you covered

**FREE TRIAL**

Webex makes it easy for students to have access to classroom information and faculty in real-time, ensuring the latest information is always accessible. Joining and hosting lectures from anywhere and on any device is a game-changer for our students and faculty.

Webex brings video and messaging collaboration right to faculty and students inside your LMS. There are three key features of Webex built just for university students:

#### Classroom Collaboration

- Organize students into project groups in seconds.
- Work together on any device, anywhere, on or off-campus.
- Everyone can chat, meet and share files securely.

#### Virtual Meetings

- Schedule one-off or recurring virtual classrooms or meetings with students and colleagues.
- Give access to full or partial recordings of class sessions.
- Synchronize meetings with your LMS calendar.

#### Office Hours

- Set up time slots for 15, 30, 45 and 60-minute.
- Apply an appointment buffer to allow for meeting over-runs.
- Notifications for scheduled meetings are pushed directly to you via email.

#### Everyone on the same page

Webex can help make your classes more accessible to students who have hearing, visual, or attention disabilities. Webex is flexible, functional, and can fit your students' needs, so no one gets left behind
